PAPER UNDER RULE 47(B)

[Handwritten signature]

Sir:

Applicant herewith requests that the filing be completed in this case without the signature of the missing inventor, Anthony Toivonen. A blank declaration is filed herewith. The inventor cannot be found after diligent effort.

When the application was filed, the undersigned sent papers to the inventor at his Intel work address. When these papers were not returned was the first hint that something was awry.

On January 27, 2000, my assistant called the Intel operator, who indicated that there was no record of that Toivonen. We also sent papers by Federal express to his home

address. While the papers were delivered, no response has been received.

On that same date, my assistant checked the Internet for information, I believe using www.Infospace.com, and found no home address listing for the inventor. Directory assistance (411) was also called for worldwide information, resulting in no listing.

The undersigned requested forwarding address information from Intel, but so far have received no address. Accordingly, it is respectfully suggested that the inventor cannot be found.

Ongoing efforts (by Intel) still exist to find the inventor. However, irreparable damage by way of loss of proprietary rights would result if the application is not accepted at this time.

The last known address of the inventor is 2360 S.W. Debok, West Linn, Oregon 97068. A notice on the merits is respectfully requested.

Please apply any charges or credits to Deposit Account No. 06-1050.

Respectfully submitted,
